A Treatise on Descriptive Geometry; For the Use of the Cadets of the United States Military Academy (Paperback)

By Claudius Crozet

Theclassics.Us, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1821 edition. Excerpt: .B and C will be the points where the normals to the two surfaces, at their common point A, pierce the horizontal plane; and, consequently, BC, the trace of the normal plane which passes through them. The perpendicular AD to this trace BC is then the tangent required. It may appear, at first, difficult to conceive the horizontal trace of a plane, which does not, in fact, differ from the plane of projections; but the doubt will be easily dispelled, by imagining the operation to be executed upon a point at an evanescent distance from the real point A; a supposition which will convince the mind, without altering the result. This case occurs frequently in practice. We will here conclude the considerations on the intersections of surfaces, which belong to the elementary part of this treatise; and resume the determination of tangent planes, This...
