# THE COPERNICUS COMPLEX: OUR COSMIC SIGNIFICANCE IN A UNIVERSE OF PLANETS AND PRO

FSG. 1 Cloth(s), 2014. hard. Book Condition: New. (Named a Best Science Book of 2014 by London's Sunday Times and NBC News, and a finalist for Physics World's Book of the Year) In the 16th century, Nicolaus Copernicus realized that Earth rotates around the Sun, demoting our planet from its central place in the cosmos and setting in motion a revolution in scientific thought. But recent evidence hints that we do in fact live in a special place, at a...

## Reviews

*An extremely awesome publication with lucid and perfect explanations. It is actually written in basic phrases rather than confusing. You will like how the writer publish this book.*

-- **Melody Jakubowski**

*Merely no words to clarify. I could comprehend almost everything using this published e publication. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Lori Terry**

*I just started off reading this article pdf. It is probably the most remarkable ebook we have go through. It is extremely difficult to leave it before concluding, once you begin to read the book.*
