VDM Verlag Mrz 2010, 2010. Taschenbuch. Book Condition: Neu. 224x151x27 mm. This item is printed on demand - Print on Demand Neuware - States and non-government organisations respond to disaster affected communities around the world but face common, well identified legal issues that impact on their ability to provide timely, vital assistance. This book reviews the law that governs Australia's international, natural disaster response arrangements and benchmarks those arrangements against Guidelines issued by the International Federation of Red Cross and Red Crescent Societies. It establishes that the Australian legal and policy arrangements do not adequately address foreseeable legal issues and recommends that the Commonwealth take steps to better prepare Australia to deal with catastrophic disasters. This book constitutes an important contribution to the legal literature in this field that will be of interest to emergency management practitioners and legislators. The identification of essential features for an Australian Act is a useful and practical contribution to the future evolution of legislation in Australia and for many other countries. 368 pp. Englisch.
