Bloomsbury, 2016. Hardcover. Book Condition: New. 23 cms. 300pp. Narendra Damodar Modi created history by becoming the first non-Congress leader to have secured an absolute majority in the Lok Sabha, the key lower house of the Indian parliament. His high decibel election campaign with its aspirational rhetoric backed by his track record in Gujarat, has unleashed unprecedented expectations both within India and abroad. This book (by an author who has closely observed the rise of Modi from close quarters) addresses the tough question whether Modi will deliver on his promises and take India to a higher trajectory of employment generation and economic growth. It does so in three ways. First, by tracking ideologies and ideals that have driven Modi forward in his undoubtedly remarkable journey. Second, by critically examining Modis track record in Gujarat to separate myth from reality. Third, by evaluating as rigorously as possible his performance during the first eighteen months as Prime Minister. Thus, the book makes an objective assessment of Modis chances to tackle the multiple and formidable challenges that India faces generating 12 million job opportunities per year needed to productively employ its young and impatient population. The book explores the efficacy of Modis approach to structural reforms and governance. This is now being questioned especially after Delhi and Bihar election results. Can his approach take India forward towards completing its triple transitions (economic, social and political) that it has audaciously chosen to pursue simultaneously Will Modi, having moved to Delhi, confine himself to replicating the Gujarat model or will he go beyond the ordinary to fulfil his historic mandate The book tries to answer this question that has implications far beyond India.
